NASA Scholarship Application
Deadline - May 16th!
Information for you and others in your network

NASA MUREP Scholarship
Application Deadline: May 16, 2014

The NASA Office of Education is accepting applications for MUREP Scholars. The MUREP Scholarship is a competitive scholarship opportunity that focuses on underserved and underrepresented students in the science, technology, engineering, and math (STEM) disciplines and students attending Minority Serving Institutions (MSIs), thereby addressing the critical shortage of qualified STEM professionals that the nation is facing.

Underserved and underrepresented STEM groups include but are not limited to women, individuals with disabilities, and individuals with military service.

MSIs include Historically Black Colleges and Universities (HBCUs), Tribal Colleges and Universities (TCUs), Hispanic Serving Institutions (HSIs), and Asian American Native American Pacific Islander Serving Institutions (AANAPISIs) as recognized by the Department of Education.

Eligibility
- Rising freshman (high school graduating seniors or GED recipients not yet enrolled in college)
- Sophomores and juniors, at the undergraduate level, who will complete their undergraduate degree in spring 2016 or later
- Minority Serving Institution community college students with at least two years remaining at the community college.

Scholarship Components:
- $9,000 academic scholarship, not to exceed 75% of verified tuition
- $6,000 stipend for a required summer 2015 ten-week internship at a NASA center designed to provide scholars with a unique NASA research experience and preparation for global competitiveness.

*MUREP Scholarships cannot be concurrently accepted or combined with another US Government Federal scholarship or funding, irrespective of the scholar's status.

Apply online at - http://intern.nasa.gov, and be sure to select "scholarship" for the type of application.

**NASA Scholarship**
**Application Deadline: May 16, 2014**

The NASA Office of Education (OE) is accepting applications for NASA Scholars. The NASA Scholarship is a competitive opportunity that focuses on students in science, technology, engineering and mathematics, or STEM, disciplines, thereby addressing the critical shortage of qualified STEM professionals that the nation is facing.

**Eligibility**
- Rising freshman (high school graduating seniors or GED recipients not yet enrolled in college)
- Sophomores and juniors, at the undergraduate level, who will complete their undergraduate degree in spring 2016 or later and community college students with at least two years remaining at the community college.

**Scholarship Components**
- $9,000 academic scholarship, not to exceed 75% of verified tuition
- $6,000 stipend for a summer 2015 10-week internship at a NASA center

*NASA OE Scholarships cannot be concurrently accepted or combined with another US Government Federal scholarship or funding, irrespective of the Scholar's Status.*

Apply online at [http://intern.nasa.gov](http://intern.nasa.gov), and be sure to select "scholarship" for the type of application. **Deadline: May 16, 2014**

============================================================================

**NASA Aeronautics Scholarship:**
**Application Deadline: May 16, 2014**

NASA’s Aeronautics Research Mission Directorate (ARMD) is directed toward enhancing the state of aeronautics for the nation, transforming the nation’s air transportation system, and developing the knowledge, tools, and technologies to support future air and space vehicles. ARMD is undertaking a scholarship program focused on aeronautical research and related degree programs at both the undergraduate and graduate levels.

**Eligibility Requirements:**
- Undergraduate students pursuing an aeronautical engineering degree or related field of study at an accredited U.S. college or university
- Have at least two (2) years of full time study left to complete as of fall 2014
- Current undergraduate juniors are not eligible for undergraduate funding unless they expect to complete their undergraduate degree in spring 2016 or later, or are in a joint baccalaureate-Master's degree program with an expected completion date of spring 2016 or later.
- Graduate students must have received or be on track to receive their bachelor's degrees by fall 2014.
Scholarship awardees selected in spring 2014 must begin their fellowship tenure by fall 2014.

Potential applicants to the program may be in their final year of undergraduate study and already accepted into a master's or doctoral program, or they may be currently enrolled in a master's or doctoral program but will not receive their degree until at least spring 2016.

Fields of study must have a focus on aeronautics-related research such as, but not limited to, air traffic management research and integrated vehicle health management.

The program is open only to applicants who are citizens or nationals of the United States. Refer to Public Law 109-155-DEC. 30, 2005, 119 STAT. 2927, 42 USC 16741, Section 431 NASA Aeronautics Scholarships. The term "nationals" refers to native residents of a possession of the United States such as American Samoa. It does not refer to a citizen of another country who has applied for U.S. citizenship. Persons who hold permanent resident status or foreign students are not eligible. Proof of citizenship will be required upon formal offer.

The Undergraduate Award includes:
- Up to $15,000 awarded for each school year, to be used for education related expenses
- Summer internship at a NASA Research Center with a stipend in an amount up to $10,000

The Graduate Award includes:
- $35,000 annual stipend
- Up to $11,000 awarded for each school year, to be used for tuition and other education related expenses
- Two (2) $10,000 summer internship at a NASA Research Center

Apply online at - [http://intern.nasa.gov](http://intern.nasa.gov), and be sure to select "scholarship" for the type of application. Deadline: May 16, 2014
