

Virginia State University Policies Manual

Title: IB, AP, and CI Credit Acceptance

Policy: 3010

Purpose

In accordance with state policy, Virginia State University (VSU) accepts credit from Advanced Placement (AP), International Baccalaureate (IB), AND Cambridge International (CI) examinations based on annual faculty and university program review. VSU awards AP, IB, and CI examination equivalencies not to exceed a maximum of 38 credit hours per student.

Authority, Responsibility, and Duties

The student must designate the Virginia State University Registrar as a recipient of the scores, and scores must be sent directly from the testing agency. Credit is awarded consistent with state and University policies and the sourcing agencies' guidelines.

Policy Statements

IB Credit

The student must designate the Virginia State University Registrar as a recipient of the scores, and scores must be sent directly from the testing agency. Credit is awarded consistent with state and University policies and the sourcing agencies' guidelines.

VSU offers **possible credit** for scores of 4, 5, 6, or 7 on most higher-level IB examinations and on select standard-level examinations in accordance with the pre-approved equivalencies for qualifying IB examination scores shown in Table One (below).

After matriculation, students should direct questions about their IB credit to the College Dean's office in which their major field of study is organized.

AP Credit

VSU awards advanced standing credit (course exemption and academic credit hours) to entering students who have qualifying scores on the AP tests. Students may receive credit in any academic discipline in which an AP test is offered so long as they take the test before the end of their senior year of high school. The pre-approved equivalencies for qualifying AP examination scores are shown in Table Two (below).

After matriculation, students should direct questions about their AP credit to the College Dean's office under which their major field of study is organized.

CI Credit

The University may grant credit for Cambridge International Examinations (CIE) levels Advanced (A) and Advanced Subsidiary (AS) offered through the University of Cambridge in England. These courses and examinations are administered through registered CIE Centers in public high schools throughout the United States. A-level syllabuses and exams cover approximately two years of college-level curriculum in a subject and the AS level syllabus and exam covers the first year of the two-year A-level curriculum.

Cambridge tests passed with final grades of A, B or C will be considered for advanced standing and credit for the corresponding courses at VSU. The applicability of such credit toward the student's degree program is interpreted by the department or school in which the student seeks a degree. Table Three (below) provides information about the VSU equivalent for various Cambridge examinations.
