BLACKBOARD LEARN 9.1

USING THE TOOLS LINK
FOR STUDENTS

Developed by Blackboard
Edited by Virginia State University Technology Services
**Accessing tools using the Tools link**

In this section, you will explore using the tools link from a student perspective.

**Learning Outcomes**

After completing this section, you will be able to:

- Accessing tools using the Tools link
Using the Tools Link

On the Course Menu, the Tools link contains links to all of the tools the instructor has made available in the course. The instructor can rename the link or remove it.

**QUICK STEPS: accessing tools using the Tools link**

1. On the Course Menu, click Tools.
2. On the Tools page, select the name of the tool to access.

Add Course Menu links to tools that will be used often. In the preceding example, a link to the Discussion Board is added to the Course Menu so students can access it directly.
