

Applied Health and Natural Science

ABOUT THIS PATHWAY

Build a strong foundation in health, science, and environmental systems. This pathway prepares students to understand scientific concepts and apply them to real-world health and environmental challenges.

WHO IS THIS FOR?

- Students interested in health professions or science-based careers
- Transfer students with prior science coursework
- Students interested in environmental or public health topics

POSSIBLE CAREER DIRECTIONS

- Health Services
- Environmental Science
- Laboratory Support
- Public Health

EXAMPLE PATHWAY COURSES

BIOL 120 Principles of Biology I

BIOL 202 Terminology for the Health Sciences

DIET 101 Nutrition: Contemporary Health Issues

HLTH 210 Foundations of Health Science

AGRI 150 Intro Environmental Science

AGRI 250 Climate Change and Adaptation Sci...

BIOL 399 Topics in Cancer Disparities

BIOL 427 Science Process Skills

HLTH 311 Special Topics in Health

HLTH 349 Scientific Readings in Health

IMPORTANT NOTE:

Courses listed are examples only. Students work with their academic advisor to build a fully customized degree plan that meets all graduation requirements.
