Re: Virginia State University 2025 Standards and Specifications for Erosion & Sediment Control and Stormwater Management  
S&S Agreement No. SS048

*Transmitted electronically:* [jataylor@vsu.edu](mailto:jataylor@vsu.edu)

Dear Mr. Taylor,

The Virginia Department of Environmental Quality (DEQ) has reviewed the Virginia State University (VSU) Standards and Specifications (S&S) for Erosion and Sediment Control (ESC) and Stormwater Management (SWM), certified on April 15, 2025 and received by the DEQ Office of Stormwater Management on April 17, 2025. The S&S Agreement is deemed approved for ESC and SWM pursuant to the Virginia Erosion and Stormwater Management Act (§ 62.1-44.15:24 et seq.) and associated regulation (9VAC25-875-10 et seq).

Approval of Standards and Specifications by DEQ does not relieve the owner or operator of the duty to comply with other applicable local, state or federal ordinances or regulations. Additionally, approval of this S&S is set to expire five (5) years from the date of this document on May 12, 2030 unless otherwise specified by DEQ or where there are changes requiring DEQ review and approval.

Please note that the approved S&S for ESC and SWM are subject to the following requirements:

1. Variance, waiver, and exception requests must be submitted to DEQ separately from the March 28, 2025 S&S document. DEQ may require project-specific plans associated with requests to be submitted for review and approval.
2. Electronic notification must be sent to DEQ at least two weeks prior to the initiation of any land-disturbing activities subject to approved S&S. Notifications shall be submitted via email to: [standardsandspecs@deq.virginia.gov](mailto:standardsandspecs@deq.virginia.gov).
  - 1) Project name and any associated Construction General Permit number;
  - 2) Project location (including nearest intersection, latitude and longitude, or access point);
  - 3) On-site project manager name and contact information;
  - 4) Responsible Land Disturber (RLD) name and contact information;
  - 5) Project description;

May 12, 2025  
VSU S&S for ESC and SWM

- 6) Acreage of disturbance for the project;
  - 7) Anticipated project start and finish dates; and
  - 8) Any deviations/variances/exceptions/waivers associated with the project.
3. In addition to the two weeks prior land disturbance notification described above, a semiannual linear project tracking report of all active projects, including acreage, initiated under this S&S agreement shall be submitted via email to [standardsandspecs@deq.virginia.gov](mailto:standardsandspecs@deq.virginia.gov) by January 15<sup>th</sup> and July 15<sup>th</sup> of each year through the duration of this approval, including ongoing, previously reported projects.
  4. ESC and SWM plans must be reviewed by DEQ-Certified Plan Reviewers. VSU, as the S&S holder, retains the authority to approve plans and must do so in writing. Should VSU, as an S&S holder, contract with a third-party to fulfill the plan review function, the certified third-party Plan Reviewer may recommend approval of the plan, but final approval must come from VSU, as the S&S holder.
  5. Any ESC and/or SWM plan submitted and deemed complete (9VAC25-875-110) by VSU before July 1, 2025, may use the previously approved S&S Program, dated May 7, 2019. After July 1, 2025, when modifications are submitted to approved plans that were developed using the previously approved S&S Program, if the land-use assumptions upon which the existing stormwater management facility was designed and implemented changes (e.g., increase in impervious cover), then the areas which result in an increase in nutrient loading should comply with this approved S&S Program, the Virginia Stormwater Management Handbook and VRRM 4.1.

To ensure compliance with approved S&S for ESC and SWM, and the Virginia Erosion and Stormwater Management Act and attendant regulation, DEQ staff will conduct random site inspections, respond to complaints, and provide on-site technical assistance with specific ESC and SWM measures and plan implementation.

As provided by Rule 2A:2 of the Rules of the Supreme Court of Virginia, you have thirty (30) days from the date of receipt within which to appeal this decision by filing a notice of appeal in accordance with the Rules of the Supreme Court of Virginia with the Director, Virginia Department of Environmental Quality.

To ensure an efficient exchange and response to inquiries, DEQ Central Office is your primary point of contact. Central Office staff will coordinate with our Regional Office staff as appropriate. Please contact Tony Angueira at (804)-584-6265 or [antony.angueira@virginia.deq.gov](mailto:antony.angueira@virginia.deq.gov) if you have any questions about this letter.

Sincerely, .

April Rhodes
