

CURRICULUM REQUIREMENTS: CLINICAL CONCENTRATION

This document presents the basic overview of the curriculum for the Psychology MS Clinical concentration. Please refer to the full program manual for more details.

CORE CLASSES – BOTH CONCENTRATIONS

Students in either concentration must complete the same set of core program courses described below.

Course Number	Name	Credits
PSYC 510	Pro Seminar	3
PSYC 530	Ethics and Professional Standards of Practice	3
PSYC 580	Statistical Methods in Health Psychology I	3
PSYC 581	Statistical Methods in Health Psychology II	3
PSYC 528	Experimental Design	3
*PSYC 599	Research & Thesis	6 (total)

*Note – Students may take between 1 and 6 credits of PSYC 599 during their thesis work to best fit their schedule and tuition cost needs. All students must complete **a total of 6 PSYC 599 credits prior to graduation** which can be done in any combination.

CLINICAL CONCENTRATION

Students in the Clinical concentration have a more specific program of study and are required to take the following courses in addition to the program core (i.e., there are no electives required for the clinical concentration, though students can choose to take extra classes).

The minimum number of credits to complete the MS clinical concentration is 48. Please note that although this document suggests the clinical concentration *can* be done in four semesters many students take longer.

Course Number	Name	Credits
PSYC 508	Psychotherapy I: Theories	3
PSYC 512	Human Growth & Development	3
PSYC 517	Advanced Psychopathology	3
PSYC 519	Psychotherapy II: Techniques	3
PSYC 520	Psychological Assessment I: Intelligence & Achievement	3
PSYC 521	Psychological Assessment II: Personality	3
PSYC 522	Practicum I: Assessment Lab	3
PSYC 523	Practicum II	3
PSYC 524	Practicum III	3

Example Clinical Concentration Schedule

Fall 1

PSYC 520 Psyc Assessment I	3hrs.
PSYC 517 Advanced Psychopathology	3hrs.
PSYC 510 Pro-seminar	3hrs.
PSYC 522 Practicum I	3hrs.

Spring 1

PSYC 521 Psyc Assessment II	3hrs.
PSYC 519 Psychotherapy II: Techniques	3hrs.
PSYC 528 Experimental Design	3hrs.
PSYC 508 Psychotherapy I: Theories	3hrs.

Fall 2

PSYC 530 Ethics	3hrs.
PSYC 523 Practicum II	3hrs.
PSYC 580 Statistical Methods in Health Psychology	3hrs.
PSYC 599 Research & Thesis	3 hrs.

Spring 2

PSYC 524 Practicum III	3hrs.
PSYC 512 Human Growth & Dev.	3hrs.
PSYC 581 Statistical Methods in Health Psychology II	3hrs.
PSYC 599 Research & Thesis	3hrs.
