VSU Wi-Fi Local Area Network (WLAN) User Guide

VSU-Student Wi-Fi on iPhone

- Click on VSU-Student Wi-Fi
- You'll be redirected to a login page that resembles the one below. The step-by-step process is illustrated below.
VSU Wi-Fi Local Area Network (WLAN) User Guide

VSU-Student Wi-Fi on iPhone (Continued)

Welcome Students
Login with your VSU account for Access

Username:

Password:

Sign On

Welcome Message
Click Continue to connect to the network.
You're very close to gaining network access.

Continue

Success
You now have Internet access through this network.

You are not successfully connected to internet
VSU Student Wi-Fi on iPhone (Continued)

- In case you aren't redirected automatically or if you're experiencing internet issues, manually open a browser and visit the website neverssl.com. You should be redirected accordingly.

- Once the login is complete, you won't be prompted to log in again for 15 days, and your connection will be established automatically.
VSU Wi-Fi Local Area Network (WLAN) User Guide

VSU-STUDENT on MacBook, iPad, Windows and Android

You should be redirected to the login page automatically; if not, follow the same procedure to log in. The login page might appear slightly different, but the process remains the same. For example, here is how the page may look on an iPad.

VSU-IOT Wi-Fi

- Click on VSU-IOT.
- You will be prompted for a password.
- Enter the password provided by the University/IT team.
- Once logged in you will have internet access.

VSU-Guest Wi-Fi

For VSU-Guest, no action is required on your part. Simply click on the WiFi network, and it will automatically connect you. However, please note that VSU-Guest provides limited access, as it is primarily intended for guests and not for students.
AirEnvision Wi-Fi

Any personal device will not be able to connect to AirEnvision. To establish a connection, ensure the following three conditions are met. If you do not meet these criteria, refrain from attempting to connect to AirEnvision.

- You must possess a VSU-issued Windows device which is part of the VSU domain.
- Your computer must be a member of a designated computer group.
- Your machine supplicant must be configured for 802.1X authentication by Windows administrator.
